REMARKS	
<u>25X1</u>	

25X1 an ammunition and ordnance depot was located in the woods 2 1/2 miles west of MALYI (R 49/J 96). Ammunition, small arms, guns and armored vehicles were stored in the depot. A 20-foot wide concrete road led to the depot, where truck convoys coming from BUDAPEST were repeatedly seen to arrive. The guard personnel of the depot was detached from the MISQOLC military post (R 49/J 87). 25X1

25X1A Comment: Rumors saying that a Soviet depot was located in FACIN (R 49/K 79) were disproved

25X1A a Soviet supply depot was located in the castle of MAGYLONA (R 49/F 09).

25X1A Comment: The MISQOLC ammunition and ordnance depot is believed to be one of the storage depots for newly delivered Soviet materiel. The materiel stored in the depot will probably be issued to Hungarian units which are either located in the MISQOLC area or are to be activated there.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
